Implementation Plan: "Bean & Brew" Café Website

Build a responsive, modern 5-page website for the artisanal café **“Bean & Brew”** using clean, semantic HTML5, CSS3 with a warm brown and cream aesthetic, and vanilla JavaScript.

User Review Required

> [!IMPORTANT]
> **Zero External Dependencies**: The website will be built purely with vanilla HTML5, modern CSS3 (CSS Custom Properties, Flexbox, Grid), and vanilla ES6+ JavaScript. No build step or external framework is required; the site will be immediately viewable by opening any `.html` file in a browser or serving with a simple HTTP server.

> [!NOTE]
> **Visual Assets**: For visual elements (hero café illustration, coffee beans, food/drink thumbnails, location pins, and icons), we will create bespoke, lightweight vector SVG illustrations in the `images/` folder styled to match the warm brown & cream color scheme. This guarantees crisp rendering on retina displays, ultra-fast load times, and zero broken external image links.

Proposed Architecture & Structure

```
c:\Users\sonik\Desktop\Bean\
├── index.html              # Home page: Hero, intro, 3 featured items, quick highlights
├── menu.html               # Menu page: Coffee, Snacks, Desserts with JS category
filtering
├── about.html              # About page: Café story, values, detailed opening hours table
├── reservation.html        # Reservation page: Booking form, JS validation, success
modal/card
├── contact.html            # Contact page: Address, phone, operating info, inquiry form
├── css/
│   └── styles.css          # Shared global design system, warm palette, responsive
layouts, nav/footer
├── js/
│   ├── main.js             # Mobile hamburger menu toggle, accessible navigation, current
page state
│   ├── menu.js             # Interactive category filtering (All, Coffee, Snacks,
Desserts)
│   ├── reservation.js      # Form validation (date/time/phone/guests), error states,
success confirmation
│   └── contact.js          # Contact form validation and confirmation
└── images/                 # Custom SVG graphics and illustrations
    ├── logo.svg
    ├── hero-cafe.svg
    ├── coffee-macchiato.svg
    ├── snack-croissant.svg
    ├── dessert-tiramisu.svg
    ├── beans-pattern.svg
    └── icons.svg
```

Proposed Changes

Component 1: Design System & Styling (`css/styles.css`)

[NEW] `css/styles.css`

- **Color Palette (CSS Variables)**:
  - `--color-primary-dark`: `#2C1810` (Dark roast espresso)
  - `--color-primary`: `#4A2E1B` (Warm coffee bean)
  - `--color-accent`: `#C58958` (Caramel / amber roast)

    - `--color-accent-hover`: `#A76D3E` (Deep caramel)
    - `--color-cream-light`: `#FDFBF7` (Steamed milk cream background)
    - `--color-cream-card`: `#F5EBE1` (Warm latte surface)
    - `--color-border`: `#E6D5C3` (Soft biscuit border)
    - `--color-text-main`: `#2B1D16` (Deep roast text)
    - `--color-text-muted`: `#6E5D53` (Soft cocoa subtext)
    - `--color-success`: `#2D6A4F` (Forest roast green for success messages)
    - `--color-error`: `#B02A37` (Terracotta error red)
- **Typography & Layout**:
    - Headings: Serif font stack (`'Playfair Display', Georgia, 'Times New Roman', serif`)
    - Body: Modern legible sans-serif (`'Segoe UI', system-ui, -apple-system, sans-serif`)
    - Responsive breakpoints: Mobile (`< 768px`), Tablet (`768px - 1024px`), Desktop (`> 1024px`).
- **Reusable Components**:
    - Global navigation bar with logo, desktop links, CTA button, and mobile hamburger icon.
    - Off-canvas / animated mobile menu drawer with smooth toggle and accessible states (`aria-expanded`).
    - Hero section layout with text content, badge, and hero visual.
    - Card components for featured items and menu items (elevation, hover effect, badge tags).
    - Form controls with floating or cleanly stacked labels, focus rings (`:focus-visible`), `:user-invalid` styling, and accessible error message spans.
    - Global footer with branding, quick links, hours snapshot, social links, and copyright.

Component 2: JavaScript Modules (`js/`)

[NEW] `js/main.js`

- Mobile hamburger menu logic:
    - Toggles navigation drawer on click.
    - Updates `aria-expanded` and `aria-hidden` attributes for screen readers.
    - Closes on `Escape` key, click outside, or when a navigation link is clicked.
    - Highlights active page link automatically based on current URL.

[NEW] `js/menu.js`

- Category filtering for the Menu page:
  - Supports filter buttons: **All**, **Coffee**, **Snacks**, **Desserts**.
  - Dynamically updates active button states (`aria-pressed="true"` or `.active`).
  - Filters menu item cards with smooth CSS opacity/transform transition.
  - Shows an accessible count of items displayed (e.g. "Showing 8 Coffee items").

[NEW] `js/reservation.js`

- Reservation validation and submission:
  - Validates:
    - **Name**: Required, min 2 characters.
    - **Phone**: Required, valid phone pattern (allows international and local formats).
    - **Date**: Required, must be today or a future date (dynamically sets `min` attribute to current date).
    - **Time**: Required, must be within café operating hours (e.g., 07:00 to 20:00).
    - **Number of Guests**: Required, between 1 and 12 guests (with instructions for larger parties).
  - Accessible error feedback: links inputs to error messages via `aria-describedby` and sets `aria-invalid="true"` .
  - On valid submission: displays a prominent, styled booking confirmation card with generated reference code (e.g., `BNB-7482`), date, time, and guest count, plus an option to "Book Another Table".

[NEW] `js/contact.js`

- Contact form handling:
  - Validates name, email format, subject, and message length.
  - Displays instant in-page confirmation banner with polite acknowledgement.

Component 3: HTML Pages

[NEW] `index.html` **(Home)**

- **Header**: Shared responsive navbar.

- **Hero Banner**: Warm background, compelling headline ("Where Every Cup Tells a Story"), description, dual CTAs ("View Our Menu", "Reserve a Table").
- **Welcome / About Snippet**: Brief story of Bean & Brew's ethically sourced beans and cozy community space.
- **Featured Items (3 Cards)**:
    1. *Signature Caramel Macchiato* (Artisanal espresso, vanilla syrup, steamed oat milk, caramel drizzle - $5.50)
    2. *Flaky Almond Croissant* (Freshly baked every morning, toasted almond flakes, frangipane - $4.25)
    3. *Velvet Espresso Tiramisu* (Savoiardi ladyfingers soaked in house roast, mascarpone cream - $6.75)
- **Café Perks**: Icons for "Locally Roasted", "Free High-Speed Wi-Fi", "Fresh Daily Bakes".
- **Footer**: Shared footer.

[NEW] `menu.html` (Menu)

- **Header & Category Filter Bar**: Quick-tab buttons ("All", "Coffee", "Snacks", "Desserts").
- **Menu Catalog**:
    - **Coffee**: Espresso, Americano, Cappuccino, Flat White, Vanilla Cold Brew, Mocha, Signature Macchiato.
    - **Snacks**: Butter Croissant, Avocado Sourdough Toast, Spinach & Feta Savory Quiche, Roasted Veggie Panini.
    - **Desserts**: Classic Tiramisu, Basque Burnt Cheesecake, Chocolate Lava Soufflé, Seasonal Berry Tart.
    - Each with name, price, descriptive tasting notes, and dietary badges (Vegan, Gluten-Free, Chef's Special).
- **Footer**: Shared footer.

[NEW] `about.html` (About)

- **Hero & Story**: The journey of Bean & Brew from a small roastery cart to a neighborhood gathering haven.
- **Our Craft & Values**: Sourcing direct-trade beans, fair compensation, zero single-use plastics initiative.
- **Opening Hours**:
    - Nicely formatted opening hours table / grid:
        - Monday – Friday: 7:00 AM – 8:00 PM

        - Saturday – Sunday: 8:00 AM – 9:00 PM
        - Holidays: 8:00 AM – 6:00 PM
- **Atmosphere & Space**: Mentions study friendly nooks, outdoor patio seating, pet-friendly outdoor area.
- **Footer**: Shared footer.

[NEW] `reservation.html` (Reservation)

- **Reservation Header & Guidelines**: Seating policy, party size info.
- **Interactive Booking Form**:
    - Fields: Full Name, Phone Number, Date (`<input type="date">`), Time (`<select>` with 30-min intervals), Guests (`<select>` 1–12), Notes/Dietary requirements.
    - Submit button: "Confirm Reservation".
- **Confirmation Message Container**: Hidden until submission, announces booking details via `aria-live="polite"`.
- **Footer**: Shared footer.

[NEW] `contact.html` (Contact)

- **Contact Layout**: Two-column responsive layout (Details & Map placeholder on left, Form on right).
- **Details**:
    - Physical Address: 142 Roast & Cinnamon Way, Downtown Craft Quarter
    - Phone: (555) 382-2326 (555-ET-BEANS)
    - Email:
    - Transit & Parking notes.
- **Contact Form**: Name, Email address, Topic/Subject, Message textarea, Send button.
- **Footer**: Shared footer.

Component 4: Visual Assets (`images/`)

[NEW] SVG Assets

- Clean, inline and standalone SVG files:
    - `logo.svg`: Warm stylized coffee bean and steaming mug motif.

- `hero-cafe.svg`: Warm café illustration featuring coffee counter, espresso machine, and seating.
- `coffee-macchiato.svg`, `snack-croissant.svg`, `dessert-tiramisu.svg`: Detailed food and drink illustrations in warm tones.
- `icons.svg` or individual icons for phone, clock, pin, user, calendar, checkmark, and hamburger menu.

Verification Plan

Automated / Syntax Verification

- Run a static check using PowerShell to verify all HTML, CSS, and JS files have valid syntax, correct file paths, and no missing closing tags:

```
powershell
# Check file presence and structure
Get-ChildItem -Recurse c:\Users\sonik\Desktop\Bean\
```

- Run a headless validation or local HTTP server test (e.g. via python/node or curl) to test HTTP response codes for all 5 HTML pages and linked CSS/JS assets.

Manual Verification

1. **Responsive & Mobile Navigation**:
   - Shrink browser viewport to `< 768px` to verify hamburger menu button appears.
   - Click hamburger button: menu drawer slides in/out smoothly.
   - Test `Escape` key and outside click to close drawer.
2. **Menu Category Filtering**:
   - Navigate to `menu.html`.
   - Click "Coffee": only coffee items display.
   - Click "Snacks": only snacks display.
   - Click "Desserts": only desserts display.
   - Click "All": all items display.
3. **Reservation Form Validation & Success State**:
   - Navigate to `reservation.html`.

- Attempt to submit empty: fields highlight with helpful error cues.
- Fill invalid phone or past date: error messages indicate the specific issue.
- Fill valid inputs and submit: form hides/resets and a clear confirmation card displays the booking summary.

4. **Contact Form Validation**:
   - Navigate to `contact.html`.
   - Fill required fields and submit: clear success feedback confirms message was sent.
5. **Theme & Visual Aesthetics**:
   - Verify warm brown and cream palette across all 5 pages.
   - Check typography hierarchy, button hover states, card shadows, and mobile responsiveness.
